TECHNICAL SKILLS

PROGRAMMING

• Python • SQL • JavaScript • C • HTML
• CSS • GenAI • RAG • Data Analytics

FRAMEWORK

TensorFlow • Pytorch • Scikit-learn
OpenCV • Pandas • NumPy • Matplotlib
Seaborn • Natural Language Processing (NLP) • Machine Learning • CNN • LLM

OTHERS

IntelliJ • Git • Github • VS Code • Mongo
DB • MySQL • Gen-AI • Tableau

ACHIEVEMENTS

- Artificial Intelligence- Kodacy
- Data Analytics using by python Samatrix
- Data Analytics By Deloitte

EXPERIENCE

Intern, FM News, Noida August 2025

Performed data analytics for FM News using Excel, Google Sheets & Python to track audience engagement and content performance.

Conducted data cleaning, visualization, and trend analysis to support news content planning and decision-making.

Generated weekly analytical reports to improve SEO strategy, social reach, and overall viewership insights.

Intern, Campalin, Bangalore Jul 2023 - Sep 2023

Successfully developed and deployed multiple international AI/ML projects with real-world impact.

Designed and implemented predictive models using CNN and NLP, achieving enhanced accuracy and efficiency.

Applied advanced AI/ML frameworks to solve complex business challenges across global projects.

PROJECTS

Traffic Sign Recognition System (TSR)

I developed a Convolutional Neural Network (CNN) to classify traffic signs, using Python and OpenCV for preprocessing and real-time detection. The model achieved high accuracy in identifying various sign categories and was tested on real-world images to validate its performance, demonstrating robust results suitable for intelligent transport systems.

Image Classification

I built a CNN using TensorFlow to classify medical images, carefully processing and augmenting datasets to enhance model learning. The project achieved 92% accuracy across multiple classes, and I visualized results through confusion matrices and performance plots, ensuring insights into model strengths and areas for improvement.

LICENSES & CERTIFICATIONS

- AI – Kodacy
- Data Analytics Using Python – Samatrix
- R Language – Samatrix
- Statistics Using Python – Samatrix
- Campalin AI
- Data Analytics By Deloitte
